

**TEED 2103 Technology and Society - Technology Assessment Paper and Presentation (50 points):**

Students will prepare a presentation on the impacts of a given technological device or system. The presentation should describe the technology (e.g., cloning of sheep) and then identify and discuss the implications for individuals and society. Students will describe the extent to which society and cultural values have made it possible for the technology to be developed and have shaped the technology. **50 points**

**Parameters:**

At a minimum, you should address each of the questions/statements listed below in the paper:

1. What are the origins of the technology?
2. What technologies or practices did the technology replace (i.e., the computer replaced the typewriter)?
3. What were/are the social impacts of this technological innovation (positive and negative)?
4. What are some ways in which the technological innovation altered culture and society?
5. What impact did the technological innovation have on history (or will have on the future)?
6. How has the technological innovation altered the environment in positive and negative ways?
7. Note: Graphics and illustrations are a plus, but do not count as a part of the 3-5 page requirements.
8. Note: Please document and cite references.
9. Note: Text directly downloaded from the Internet does not count as a part of the 3-5 page text requirements.

**Evaluation:**

Students will teach for a minimum of 10 minutes on their topic and are expected to use a PowerPoint, Prezi, Flipchart or other resource as a visual aid with minimal use of text (Students are expected to be prepared to present to the group, not to read the presentation). Group discussion is encouraged, and if needed, an additional 5 minutes will be allowed for questions and answers. Your responses to the questions above will be assessed according to the following criteria:

- A. **Clarity of Expression (25%):** Did you present your ideas clearly and did you provide evidence to support your reasoning? Did the presentation adequately describe, compare, analyze, apply, synthesize, and argue for or against the given technological device or system.
- B. **Conviction (25%):** Was it clear that you believe in your response or did you simply copy from an original source?

**\*Students are required to be present for all presentations.**

**Technology Assessment Reflection Paper (50 points):**

Students will write a paper (3-5 pages) summarizing their Technology Assessment Presentation. It will include a self- evaluation of the presentation, and a reflection of the process involved.

- C. **Clarity of Expression (20%):** Did you present your ideas clearly and did you provide evidence to support your reasoning?
- D. **Conviction (20%):** Was it clear that you believe in your response or did you simply copy from an original source?
- E. **Punctuation/Grammar (10%):** Was the paper written in an appropriate fashion, using proper grammar and punctuation?
